

Break It Down

Nothing can stay in way
Smashing through the walls, that's ok
I couldn't, couldn't care less, if there's a mess
Kicking scattered rocks away
And I break it down

Wanna break it down
Gotta break it down
I need to break it down
It's gonna come around, it's gonna come around
And I break it down

I push tables and chairs to the side
I need to make room for my mind
I'll always follow my path, I did the math
And I'm leaving, I'm leaving, I'm leaving all behind
And I break it down

Nothing can stay in way
Smashing through the walls if that's ok
I couldn't, couldn't care less, if there's a mess
And I'm kicking scattered rocks away
And I break it down

Wanna break it down
Gotta break it down
I need to break it down
It's gonna come around, it's gonna come around
And I break it down
