

Leaving All Behind

I won't look back
Change it before I crack
Follow another track
Crave for utter bliss
I need to get out of these
Shackles that I'll never miss

And I will leave
And I will go
Gonna turn my back
On the past, I know
I need to leave
I need to go
Can't take this anymore

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

I know the stakes are high
But the least I can do is try
I don't wanna live a lie
I've had enough
It's plain to see,
The world is rough
Don't worry, I am tough

And I will leave
And I will go
Gonna turn my back
On the past I know
I need to leave
I need to go
Can't take this anymore

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

All I got is in my suitcase
Only the road on my mind
In the mirror my face
As I am leaving all behind

All I got is in my suitcase
Only the road on my mind
In the mirror my face

As I am leaving all behind
