

# No Never Ever

Thinking that you got  
The biggest balls  
Whatever you say  
Rocks 'n' rolls  
You're walking tall on your  
Stilts and lifts  
You're gonna  
Break your neck when your  
Big head falls

Ascending the throne  
Like a king  
Thy entourage may  
Kiss the ring but  
Your spell is an illusion  
Came to the right conclusion  
Can't dazzle me with  
Anything

You make me wanna say  
No oh oh oh oh oh  
Oh oh oh oh oh oh  
Never ever,  
When hell freezes over  
No oh oh oh

Even you have been  
Once a good guy  
But you jerk punched him  
In the eye  
Stabbed him in the back  
Lost him on the track  
Should get him back,  
Never ask why

This is something I had to tell you  
Sure, it hurts  
But you know it's true so  
Don't slide away  
Get a grip and stay  
Or blow your chance,  
You better try  
You better tryyyyy

You make me wanna say  
No oh oh oh oh oh  
Oh oh oh oh oh oh  
Never ever,  
When pigs can fly, say  
No oh oh oh oh oh  
Oh oh oh oh oh oh  
Never ever,  
Not for all the stars in the sky

You make me wanna say  
No oh oh oh oh oh  
Oh oh oh oh oh oh  
Never ever,  
You're barking up the wrong tree  
No oh oh oh oh oh  
Oh oh oh oh oh oh  
Not if my btt could  
Produce cotton candy  
No oh oh oh
